Choose a Plan in Just Five Steps:

Step 1: Understand Medicare Insurance Basics

Medicare helps pay your hospital and medical health care expenses.

Medicare Part A is Hospital Insurance

Includes coverage for hospital inpatient care and recovery care in skilled nursing facilities, hospice and home health care services

Medicare Part B is Medical Insurance

Helps cover some medically necessary services from doctors and other health care providers plus preventive services

Step 2: Know What Medicare Doesn't Pay

You already may be familiar with paying a portion of your health care costs. Medicare also requires you pay a share, including:

- > Medicare Part A hospital benefit-period deductible and coinsurance
- > Medicare Part B medical calendar-year deductible, generally 20% coinsurance and charges exceeding the Medicare eligible expense
- > Skilled nursing facility coinsurance

You may choose to pay these charges yourself or purchase a Medicare supplement insurance policy to help pay the difference.

Step 3: Learn what a Medicare Supplement Plan Can Do For You

Your Royal Arcanum Insurance Company Medicare supplement insurance policy helps pay some eligible expenses not paid for by Medicare Part A and Medicare Part B. Of course, **there may be charges above what Medicare and Royal Arcanum pay.**

All Plans Offer You This Feature

You're Covered Immediately

There is no waiting period for preexisting conditions and benefits are paid from the time your policy is in force.

Low Out-Of-Pocket Costs

Your Medicare supplement and Medicare Parts A and B work together to minimize your share of health care costs. With this additional insurance coverage, even unexpected medical events aren't likely to impact your financial health. Plus, as Medicare deductibles, copayments and coinsurance increase, your Medicare supplement benefits also increase to help meet your eligible expenses.

No Provider Networks, No Referrals

You decide who you want to see for your care. Any health care provider who accepts Medicare patients accepts our Medicare supplement insurance. You won't have to find network providers or get referrals to see specialists.

Rarely Receive a Bill for Covered Services

When your health care providers accept Medicare, they bill Medicare for the approved services. Medicare pays its share and we pay the rest. The entire process is electronic so your claims are paid quickly.

Keep Your Coverage

Your Medicare supplement insurance policy renews as long as you pay the premiums on time and make no material misrepresentations on the application.

What's more, the annual Medicare open enrollment and the Affordable Care Act annual election period don't affect your Medicare supplement insurance.

Your Coverage Goes with You From Coast to Coast

Just like Medicare, your Medicare supplement insurance covers your health care needs throughout the United States. That way, you can visit family and friends wherever you choose.

Emergency Care Anywhere in the World

Most Medicare supplement insurance plans provide limited medically necessary emergency care outside the country. The benefit is subject to a \$250 deductible, 20% coinsurance and a lifetime maximum of \$50,000.

For additional information including exceptions and limitations, please review the back cover page.

Step 4: Consider How Much Medicare Supplement Coverage You Need

To help you decide which Medicare supplement insurance plan is right for you, think about what you want the plan to pay and what you can budget for. See the Plan chart in Step 5 for current benefit amounts.

Step 5: Continued

Medicare Part A Hospital Coverage

Deductible - All plans, except Plan A, pay the inpatient hospital deductible for each benefit period, which begins the first full day you're hospitalized and ends when you haven't been in a hospital or skilled nursing facility for 60 days in a row.

Coinsurance - All plans pay Medicare's coinsurance when you're hospitalized from the 61st through the 90th day. And, when you're in the hospital from the 91st day through the 150th day (the 60 Medicare Lifetime Reserve days), the plans pay the coinsurance.

Extended Hospital Coverage - When you're in the hospital longer than 150 days during a benefit period, and you've exhausted your 60 Medicare Lifetime Reserve days, all plans pay the Medicare Part A eligible expenses for hospitalization, paid at the rate Medicare would have paid, subject to a lifetime maximum benefit of an additional 365 days.

Benefit for Blood - All plans pay Medicare's one calendar-year deductible for blood that is the cost of the first three pints needed.

Skilled Nursing Facility Care Benefit

Coinsurance - All plans, except Plan A, pay the coinsurance from the 21st through the 100th day during which you receive skilled nursing care. You must enter a Medicare certified skilled nursing facility within 30 days of being hospitalized for at least three days.

Medicare Part B Medical Coverage

Deductible - Plan F pays the calendar-year deductible.*

Coinsurance - After the Medicare Part B deductible, all plans pay 20% of eligible expenses. With Plan N, you pay up to a \$20 copayment for some office visits and up to a \$50 copayment for emergency room visits.

For hospital outpatient services, the copayment amount will be paid under a prospective payment system. If this system is not used, then 20% of eligible expenses will be paid.

Excess Benefits - Your bill for Medicare Part B services and supplies may exceed the Medicare-eligible expense resulting in excess charges. When that happens, Plans F would pay 100% of the difference, up to the charge limitation established by Medicare.

Benefit for Blood - All plans pay Medicare's one calendar-year deductible for blood that is the cost of the first three pints needed.

Additional Benefit

Emergency Care Received Outside the U.S. - After you pay a \$250 calendar-year deductible, Plans F, G, N and High Deductible F pay you 80% of eligible expenses for health care you need because of a covered injury or illness beginning during the first 60 days of each trip up to a lifetime maximum of \$50,000.

**Only applicants' first eligible for Medicare before 2020 may purchase Plans C, F and high deductible F.*

Glossary

Benefit Period - Begins the first full day you're hospitalized and ends when you haven't been in a hospital or skilled nursing facility for 60 days in a row.

Coinsurance - An amount, usually a percentage, you may be required to pay as your share of the cost for services after you pay any deductibles.

Copayment - A set dollar amount you may be required to pay as your share of the cost for a medical service or supply.

Deductible - The dollar amount you must pay before Medicare or Medicare supplement insurance pays.

Excess Charge - When the amount a provider is legally permitted to charge is higher than the Medicare-approved amount.

Hospital Inpatient Care - Eligible expenses include charges for semiprivate room and board, general nursing and miscellaneous services and supplies.

Medicare-Approved Amount - The amount a health care provider who accepts assignment can be paid. It may be less than the actual amount a provider charges. Medicare pays part of this amount and you're responsible for the difference.

Medicare Eligible Expenses - Charges covered by Medicare Parts A and B to the extent Medicare recognizes them as reasonable and medically necessary.

Medicare Lifetime Reserve Days - After you've been in the hospital for more than 90 days, Medicare pays for another 60 days of hospitalization during your lifetime. A daily coinsurance applies.

Skilled Nursing Facility Care - Medicare pays eligible charges in a Medicare-certified skilled nursing facility within 30 days of being hospitalized for at least three days.
